Cal EOC Incident – 2014 Drought

SOC / Inland REOC remains activated in support of 2014 Drought

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

Medford Weather:

A strong cold front will move through the coastal waters this morning. This front is expected to move ashore late this morning and will bring gusty south winds to the coast this morning with gusty winds spreading inland throughout the day. By Wednesday evening another round of rain is expected and this next round appears heavier in term of amount at the coast and in the cascades. However snow levels will remain quite high and snow melt could become an issue in the second half of the week.

Eureka Weather:

A cold front is approaching the coast this morning and will bring gusty winds and rain to the region later today after a mostly dry day Wednesday a series of weather systems will bring gusty winds and periods of rain through the weekend.

Reno Weather:

Gusty winds will produce choppy lake conditions today as weak low pressure moves across the Pacific Northwest. Most areas will remain dry with above average temperatures through Thursday, then rain and snow potential increases by Friday when deeper moisture arrives. A wetter and cooler weather pattern will likely return this weekend and next week with periods of strong gusty winds.

Sacramento Weather:

Weak weather systems will brush the area today and Thursday with light precipitation generally North of I-80. Otherwise dry and mild weather will continue elsewhere. A wetter weather pattern is expected to return this weekend.

San Francisco Weather:

Mostly dry weather conditions and above average temperatures will continue today. Rain chances return to the San Francisco bay area on Thursday with a weak system pushing inland. A more significant change in the weather pattern is expected by the weekend with widespread rainfall forecast to return after a generally dry February.

WEATHER

WEATHER SYNOPSIS BY REGION:

CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY:

Hanford Weather:

Dry weather will continue through midweek with temperatures warming to well above normal. A weak weather system will move to our North on Thursday bringing more seasonable temperatures through the end of the week. A stronger system is expected to impact the region Saturday and Sunday.

SOUTHERN CALIFORNIA:

Los Angeles Weather:

A warm weather pattern away from the coast will continue through Thursday as high pressure aloft remains in place. Closer to the coast a shallow marine inversion and weak onshore flow will keep temperatures moderated with the possibility of dense fog. A wet and unsettled pattern will develop between Friday and Sunday bringing cooler and cloudier conditions.

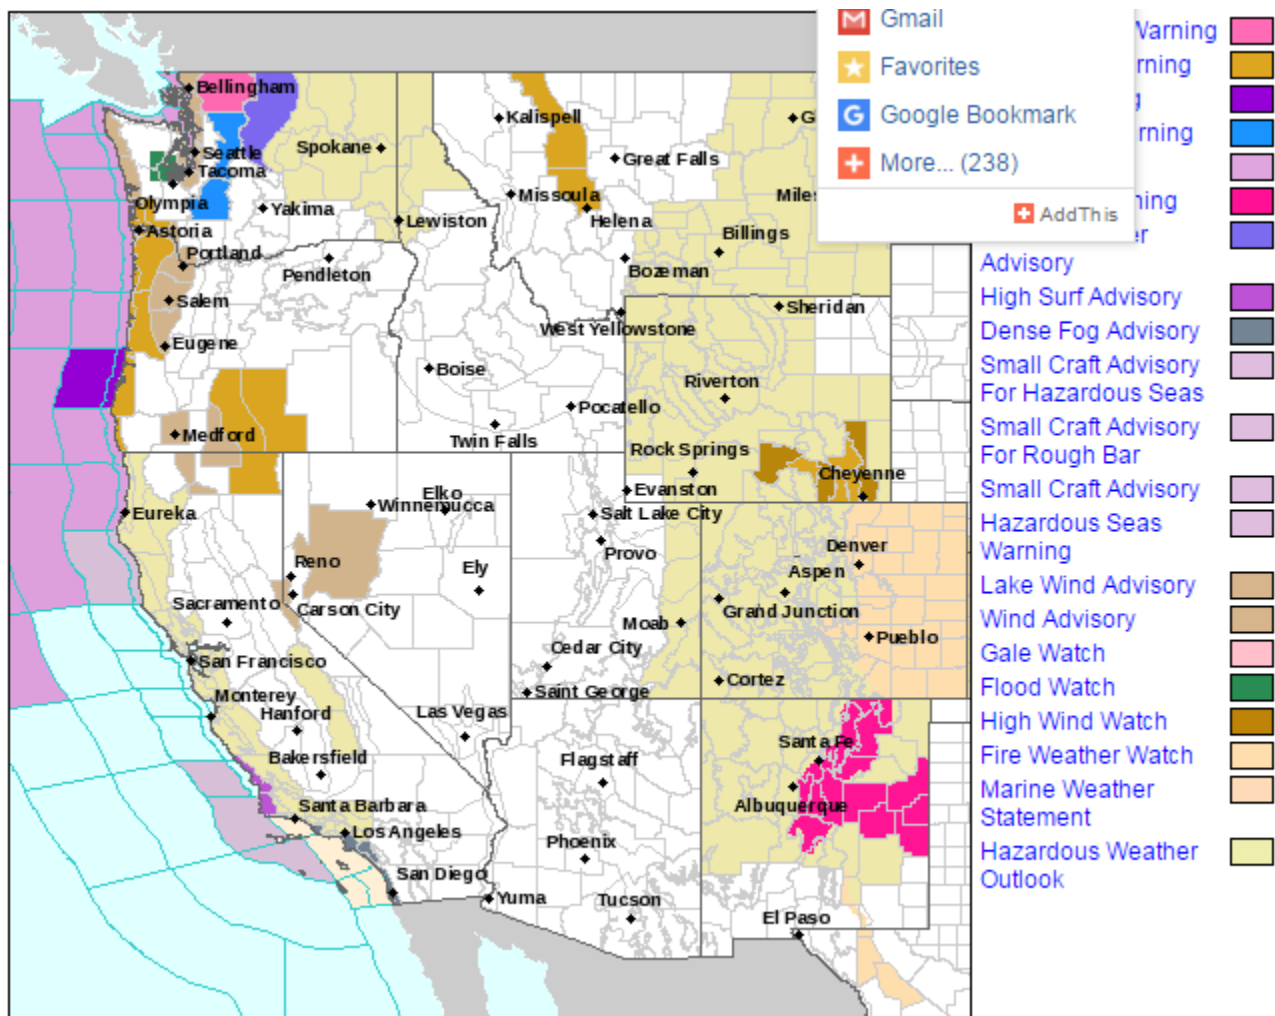

Extreme Southwestern California including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:

Fair and warm weather will continue inland through Friday while a shallow marine layer will keep coastal areas cooler with some low clouds and fog. Onshore winds will increase this weekend and bring cooler weather as a storm system moves into Southern California. Precipitation is expected Sunday through at least Monday.

Southeast California Weather:

Very strong high pressure system over the region is forecast to produce very warm temperatures with record or near record temperatures likely from today through Saturday. Low pressure moving inland from the eastern pacific will then bring a turn towards much cooler temperatures and a chance for rainfall from Sunday onward into at least the early part of next week.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

- The SOC is activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take place on the first Wednesday of each month.
- Cal OES Recovery/Individual Assistance finalized an updated 2015 version of the drought brochure of programs and services for individuals, businesses, farmers, and ranchers. It has been put on the Governor's Drought webpage. State agencies may put the following link to the brochure on their webpage <http://ca.gov/drought/pdf/Drought-Assistance-Brochure-2015.pdf>
- Cal OES Regions (Inland, Coastal, Southern) collective OA drought call is facilitated by the SOC and will be held once per month.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

MGT-347 NIMS Incident Command Systems Forms

Description

Learn about and use the most common Incident Command System (ICS) forms. The course will prepare you to work with the ICS Forms used in the Incident Command Planning process to assist in the development of an Incident Action Plan (IAP).

You will be introduced to the forms and will practice how to develop and write effective objectives to manage an expanding all-hazards incident. The course will allow you to learn and experience the benefits of using the forms in responding to emergencies or managing planned events.

Prerequisite

IS-100.b, FEMA Introduction to the Incident Command System (ICS-100)
IS-200.b, FEMA Incident Command System for Single Resources and Initial Action Incidents, ICS-200
IS-700.a, Introduction to the National Incident Management System (NIMS)
IS-800.b, National Response Framework (NRF), An Introduction

Date: March 8, 2016 (afternoon)

Time: 1:00 pm – 5:00 pm

Location: Governor's Office of Emergency Services
10390 Peter A. McCuen (California Training Room)
Mather, CA 95655

No Cost!
(Limited Seats)
